-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) ☐ Responsive to communication(s) filed on \_\_\_\_.
- 2a) ☒ This action is **FINAL**.                      2b) ☐ This action is non-final.

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 8, 9, 12, 21, 22 and 25 are rejected under 35 U.S.C. 102(b) as being anticipated by Auchincloss, US 4,822,512. See the dry powder mixes disclosed at the top of col. 7. These were formulated into 20% solutions with water to provide compositions comprising 10% of potassium persulfate; about 5% malic acid-phosphate buffer; and 0.2%-1% sodium chloride in water.

### ***Claim Rejections - 35 USC § 103***

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

4. Claims 8-10, 12-14, 21-23, 25-27, 34-36, and 38-43 are rejected under 35 U.S.C. 103(a) as being unpatentable over Auchincloss, US 4,822,512. The reference discloses biocidal compositions comprising 0.01-5 pbw of an inorganic halide; 25-60 pbw of an oxidizing agent; 0-20 pbw of a non-reducing organic acid and 10-30 pbw of an anhydrous alkali metal phosphate (col. 2, lines 18+). The pH of a 1% aqueous solution is 1.2-5.5. The preferred inorganic halide is sodium chloride. Surfactants may be added (col. 3, lines 16+). Sodium hexametaphosphate is the preferred phosphate, but others

Art Unit: 1751

may be used (col. 3, lines 3+). The compositions may be dissolved in sea water (col. 3, lines 13-15). The examiner takes the position that sea water may reasonably be considered a cosolvent. Regarding useful percentages of cosolvent and surfactant, determination of the useful amounts of these amounts to routine optimization. While the reference does not disclose all of the limitations of all of the claims with sufficient specificity to constitute anticipation, it would have been obvious at the time that the invention was made to make such compositions, because the reference teaches that compositions as claimed are useful biocides. The person of ordinary skill in the surfactant art would expect the claimed compositions to have properties similar to those of the disclosed compositions.

5. Applicant's submission of an information disclosure statement under 37 CFR 1.97(c) with the fee set forth in 37 CFR 1.17(p) on May 2, 2006 prompted the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 609.04(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to the examiner, Dr. John R. Hardee, whose telephone number is (571) 272-1318. The examiner can normally be reached on Monday through Friday from 8:00 until 4:30. In the event that the examiner is not available, his supervisor, Mr. Douglas McGinty, may be reached at (571) 272-1029.

The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8100.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
